

Agricultural Stewardship Association

County Ag Plan Workshop for Farmers

We want YOU! To be heard, that is. Washington County is in the process of updating its Agricultural and Farmland Protection Plan. The goal of the update is to generate a new list of goals and strategies to strengthen and support the local ag sector. We hope a few great ideas will rise to the top and we can pursue state funding to implement them.

The two farmer workshops will be identical in content so please only attend one, if you wish to participate. *A complimentary light lunch will be provided.* The workshops are being held on:

Tuesday, February 2nd at Burton Hall in Easton from noon until 2pm.
1071 State Route 40, Greenwich.

Monday, February 8th at Hartford Town Hall from noon until 2pm.
165 Hartford Main Street, Hartford

Please contact ASA at 692-7285 or renee@agstewardship.org to RSVP.

You can also participate in an interview or brief survey for agricultural producers.
Contact ASA for more details.
