(d) Applications for Building Permits. Applications shall be available through local Town/Village Clerks Officers of municipalities that have passed local laws, properly filed with the New York State Department of State to transfer local administration and enforcement of the Code. Building Permit applications shall also be available directly from the County Department of Code Enforcement. The application shall be signed by the owner of the property where the work is to be performed or an authorized agent of the owner. The application shall include such information as the Department of Code Enforcement deems sufficient to permit a determination by the Department of Code Enforcement that the intended work complies with all applicable requirements of the Uniform Code and the Energy Code. The application shall include or be accompanied by the following information and documentation:

(2) the tax map number and the street address of the premises where the work is to be performed;

The Local Regulation Compliance Certificate shall have the signature of both the applicant and chief elected official, or his/her designee, of the local municipality. A building permit shall not be issued until a completed Local Regulation Certificate is received by the Department.

(7) On site sewage disposal systems: For buildings permit projects involving the placement of a new on-site sewage disposal system, applicants shall submit either an application for approval, or proof of previous approval, for such system in accordance with applicable provisions of Washington County Local Law No. 1 of 1988 and its amendments. One set of the accepted construction documents shall be retained by the Department of Code Enforcement, and one set of the accepted construction documents shall be returned to the applicant to be kept at the work site so as to be available for use by the Code Enforcement Personnel. However, the return of a set of accepted construction documents to the applicant shall not be construed as authorization to commence work, nor as an indication that a Building Permit will be issued. Work shall not be commenced until and unless a Building Permit is issued.

(f) Issuance of Building Permits. An application for a Building Permit shall be examined to ascertain whether the proposed work is in compliance with the applicable requirements of the Uniform Code and Energy Code and other local requirements. The Department of Code Enforcement shall issue a Building Permit if the proposed work is in compliance with the applicable requirements of the Uniform Code and Energy Code and those other requirements listed herein.

(g) Building Permits to be displayed. Building permits shall be visibly displayed at the work site and shall remain visible until the authorized work has been completed.

(h) Work to be in accordance with construction documents. All work shall be performed in accordance with the construction documents which were submitted with and accepted as part of the application for the Building Permit. The Building Permit shall contain such a directive. The Permit Holder shall immediately notify the Department of Code Enforcement of any change occurring during the course of the work. The Building Permit shall contain such a directive. If the Department of Code Enforcement determines that such change warrants a new or amended Building Permit, such change shall not be made until and unless a new or amended Building Permit reflecting such change is issued.

(i) Time limits. Building Permits shall be approved/disapproved within sixty (60) days from the date of submission of the completed application. Building Permits will become invalid unless the authorized work is commenced within six (6) months following the date of issuance. Building Permits shall expire twelve (12) months after the date of issuance. A Building Permit which has become invalid or which has expired pursuant to this subdivision may be renewed upon application by the Permit Holder, payment of the applicable fee, and approval of the application by the Department of Code Enforcement.

(j) Revocation or suspension of Building Permits. If the Department of Code Enforcement determines that a Building Permit was issued in error because of incorrect, inaccurate or incomplete information, or that the work for which a Building Permit was

issued violates the Uniform Code or the Energy Code, the Department of Code Enforcement shall revoke the Building Permit or suspend the Building Permit until such time as the Permit Holder demonstrates that (1) all work then completed is in compliance with all applicable provisions of the Uniform Code and the Energy Code and (2) all work then proposed to be performed shall be in compliance with all applicable provisions of the Uniform Code and the Energy Code.

(k) Fee. The fee specified in or determined in accordance with the provisions set forth in section 16 (Fees) of this local law must be paid at the time of submission of an application for a Building Permit, for an amended Building Permit, or for renewal of a Building Permit.

SECTION 5. CONSTRUCTION INSPECTIONS.

- (9) Energy Code compliance; and
- (10) a final inspection after all work authorized by the Building Permit has been completed.

(c) Inspection results. After inspection, the work or a portion thereof shall be noted as satisfactory as completed, or the Permit Holder shall be notified as to where the

work fails to comply with the Uniform Code or Energy Code. Work not in compliance with any applicable provision of the Uniform Code or Energy Code shall remain exposed until such work shall have been brought into compliance with all applicable provisions of the Uniform Code and the Energy Code, reinspected, and found satisfactory as completed.

(d) Fee. The fee specified in or determined in accordance with the provisions set forth in section 16 (Fees) of this local law must be paid prior to or at the time of each inspection performed pursuant to this section.

SECTION 6. STOP WORK ORDERS.

(a) Authority to issue. The Department of Code Enforcement is authorized to issue Stop Work Orders pursuant to this section. The Department of Code Enforcement shall issue a Stop Work Order to halt:

(1) any work that is determined by the Department of Code Enforcement to be contrary to any applicable provision of the Uniform Code or Energy Code, without regard to whether such work is or is not work for which a Building Permit is required, and without regard to whether a Building Permit has or has not been issued for such work, or

(2) any work that is being conducted in a dangerous or unsafe manner in the opinion of the Department of Code Enforcement, without regard to whether such work is or is not work for which a Building Permit is required, and without regard to whether a Building Permit has or has not been issued for such work, or

(b) Content of Stop Work Orders. Stop Work Orders shall (1) be in writing, (2) be dated and signed by the Department of Code Enforcement, (3) state the reason or reasons for issuance, and (4) if applicable, state the conditions which must be satisfied before work will be permitted to resume.

(c) Service of Stop Work Orders. The Department of Code Enforcement shall cause the Stop Work Order, or a copy thereof, to be served on the owner of the affected property (and, if the owner is not the Permit Holder, on the Permit Holder) personally or by registered mail. The Department of Code Enforcement shall be permitted, but not required, to cause the Stop Work Order, or a copy thereof, to be served on any builder, architect, tenant, contractor, subcontractor, construction superintendent, or their agents, or any other Person taking part or assisting in work affected by the Stop Work Order, personally or by registered mail; provided, however, that failure to serve any Person mentioned in this sentence shall not affect the efficacy of the Stop Work Order.

(d) Effect of Stop Work Order. Upon the issuance of a Stop Work Order, the owner of the affected property, the Permit Holder and any other Person performing, taking part in or assisting in the work shall immediately cease all work which is the subject of the Stop Work Order.

(e) Remedy not exclusive. The issuance of a Stop Work Order shall not be the exclusive remedy available to address any event described in subdivision (a) of this section, and the authority to issue a Stop Work Order shall be in addition to, and not in substitution for or limitation of, the right and authority to pursue any other remedy or impose any other penalty under section 15 (Violations) of this local law or under any other applicable local law or State law. Any such other remedy or penalty may be pursued at any time, whether prior to, at the time of, or after the issuance of a Stop Work Order.

SECTION 7. CERTIFICATES OF OCCUPANCY

(a) Certificates of Occupancy required. A Certificate of Occupancy shall be required for any work which is the subject of a Building Permit and for all structures, buildings, or portions thereof, which are converted from one use or occupancy classification or subclassification to another. Permission to use or occupy a building or structure, or portion thereof, for which a Building Permit was previously issued shall be granted only by issuance of a Certificate of Occupancy.

(b) Issuance of Certificates of Occupancy. The Department of Code Enforcement shall issue a Certificate of Occupancy if the work which was the subject of the Building Permit was completed in accordance with all applicable provisions of the Uniform Code and Energy Code and, if applicable, that the structure, building or portion thereof that was converted from one use or occupancy classification or subclassification to another complies with all applicable provisions of the Uniform Code and Energy Code. The Department of Code Enforcement or an Inspector authorized by said Department shall inspect the building, structure or work prior to the issuance of a Certificate of Occupancy. In addition, where applicable, the following documents, prepared in accordance with the provisions of the Uniform Code by such person or persons as may be designated by or otherwise acceptable to the Department, at the expense of the applicant for the Certificate of Occupancy, shall be provided to the Department of Code Enforcement prior to the issuance of the Certificate of Occupancy:

(1) a written statement of structural observations and/or a final report of special inspections, and

(2) flood hazard certifications.

(d) Temporary Certificate. The Department of Code Enforcement shall be permitted to issue a Temporary Certificate allowing the temporary occupancy of a building or structure, or a portion thereof, prior to completion of the work which is the subject of a Building Permit. However, in no event shall the Department of Code Enforcement issue a Temporary Certificate unless the Department of Code Enforcement determines (1) that the building or structure, or the portion thereof covered by the Temporary Certificate, may be occupied safely, (2) that any fire- and smoke-detecting or fire protection equipment which has been installed is operational, and (3) that all required means of egress from the building or structure have been provided. The Department of Code Enforcement may include in a Temporary Certificate such terms and conditions as he or she deems necessary or appropriate to ensure safety or to further the purposes and intent of the Uniform Code. A Temporary Certificate shall be effective for a period of time, not to exceed six (6) months, which shall be determined by the Department of Code Enforcement and specified in the Temporary Certificate. During the specified period of effectiveness of the Temporary Certificate, the Permit Holder shall undertake to bring the building or structure into full compliance with all applicable provisions of the Uniform Code and the Energy Code and all provisions of this local law.

(e) Revocation or suspension of certificates. If the Department of Code Enforcement determines that a Certificate of Occupancy or a Temporary Certificate was issued in error because of incorrect, inaccurate or incomplete information, and if the relevant deficiencies are not corrected to the satisfaction of the Department of Code Enforcement within such period of time as shall be specified by the Department of Code Enforcement, the Department shall revoke or suspend such certificate.

(f) Fee. The fee specified in or determined in accordance with the provisions set forth in section 16 (Fees) of this local law must be paid at the time of submission of an application for a Certificate of Occupancy or for Temporary Certificate.

Upon receipt of written notification of the unsafe structure or building the Department of Code Enforcement will perform a site inspection to determine the nature of the hazard and the appropriate action to be taken. The Department will complete a written field inspection report or complete a Compliance Order detailing the findings and will provide the owner of the structure or equipment with a copy of such.

If the Department deems it appropriate to condemn or otherwise restrict access to the structure or equipment, the Department will conspicuously post the structure/equipment with a notice of closure. Any tenants or other persons with an interest in the posted structure or equipment may contact the Department with any questions or concerns.

If the Department of Code Enforcement determines that tests or reports are necessary to verify conformance, such tests or reports shall be performed or provided by such person or persons as may be designated by or otherwise acceptable to the Department of Code Enforcement, at the expense of the applicant.

(c) Inspections. The Department of Code Enforcement or personnel authorized by the Department shall inspect the subject premises prior to the issuance of an Operating Permit.
